IT'S IN YOUR HANDS.

KNEE PROTECTION

CONCEPT

THE CREATION OF OUR KNEE PADS

DEVELOPMENT

FROM PRACTICE, FOR PRACTICE

When developing our new line of knee pads, we focused on one clear goal: **Maximum protection, high comfort, and a simple, logical product selection process for the user.**

DEVELOPMENT IN COLLABORATION WITH PROFESSIONALS

All models were tested in collaboration with flooring installers, tradespeople, and specialized contractors. Their feedback on fit, slip resistance, strap guidance, and pressure distribution was directly incorporated into the product optimization process.

1 THE SURFACE: HEAVY OR ALL-AROUND

Depending on the application, we distinguish between:

HEAVY – For hard, rough surfaces subject to heavy loads
ALLROUND – For a variety of applications and universal use

This allows the knee pad to adapt perfectly to any work environment—from concrete to gravel.

2 PROTECTION LEVELS: LEVELS 0, 1, AND 2

Puncture and impact protection is classified into three classes in accordance with the standard:

LEVEL 0 – Basic Protection
LEVEL 1 – Enhanced protection for work that involves regular kneeling
LEVEL 2 – Maximum protection for extreme conditions

This allows each user to choose exactly the level of protection that suits their daily work routine.

3 OUR QUALITY PROMISE: ULTRA, PRO, CLASSIC

In addition, our knee pads differ in terms of features, material quality, and durability:

ULTRA – Premium materials, maximum comfort, and superior durability
PRO – greater durability and improved comfort
CLASSIC – Reliable quality for regular use

ULTRA represents our uncompromising professional solution. Tested by professionals—optimized for everyday use.

12 MODELS—CLEARLY ORGANIZED, SIMPLY PRESENTED

The result is a carefully curated selection of 12 knee pads that:

- covers all relevant requirements
- provides clear guidance for the user
- and looks great on a shelf, in a display unit, or on a stand

“Developed from real-world experience—for every challenge you face on your knees.”

ULTRA

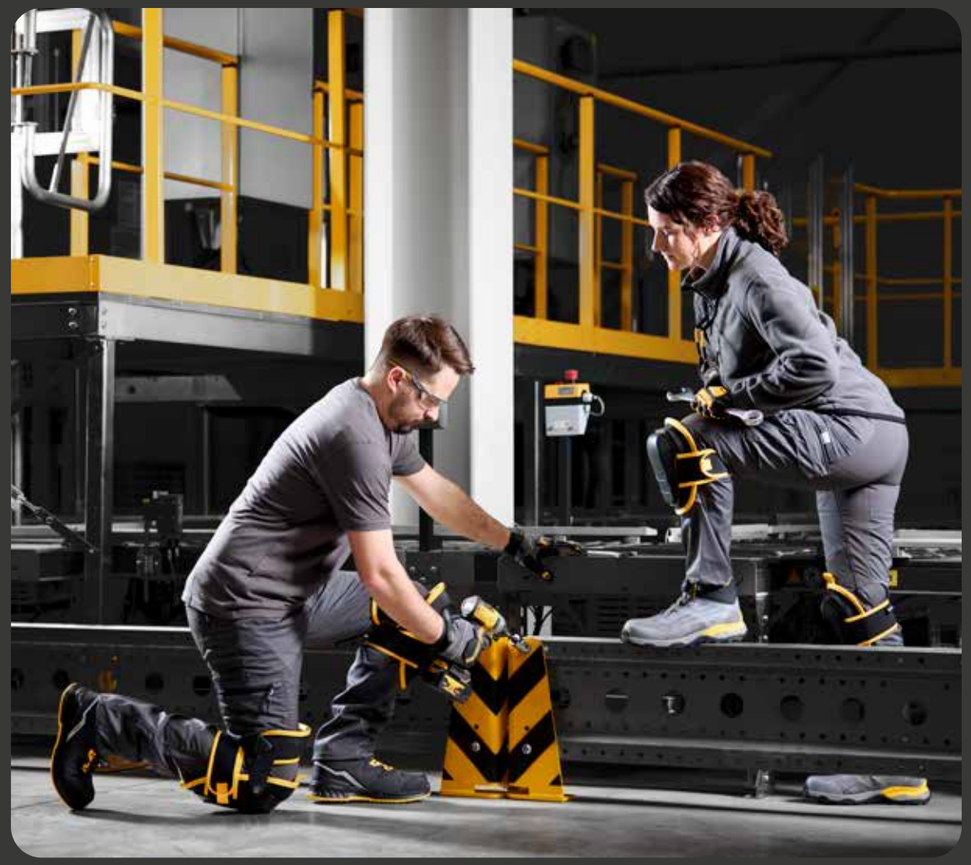

ULTRA – MAXIMUM PERFORMANCE WITHOUT COMPROMISE

The **ULTRA** models are the top of the line in our knee protection range. They were developed for extreme requirements and combine **premium materials with maximum wearing comfort and maximum durability.**

The **ULTRA** models focus on:

- particularly durable outer materials
- high-quality upholstery and cushioning systems
- ergonomic design for long, fatigue-free working

ULTRA is the right choice for professionals who **refuse to compromise** and expect a product that delivers consistently high performance even under intensive daily use.

KNEE PAD U-300

DESCRIPTION
— Drawstring loop for easy fastening and adjustment
— Durable fabric with a shock-absorbing gel insert
— PP shell with TPR elements for extra grip and protection
— Foldable thigh strap for maximum stability
— Extra-wide elastic fastening straps with a pull tab
— Optimal grip for demanding tasks
— Performance level: 2 / Type 1

THE RIGHT SOLUTION FOR EVERYONE
— For professional users and DIY enthusiasts
— Compliant with all legal requirements
— The right product for every application

QUALITY WITHOUT COMPROMISE
— ISO 9001:2015 certified
— Quality control by international testing institutes
— Quality and compliance management inspects products and production processes on site.

FAST. RELIABLE.
— Delivery within 48 hours
— Efficient logistics processes
— Reliable shipping partners, Europe-wide

DESIGNED FOR REAL WORK
— Continuous product development
— Focus on application and product quality
— Innovative sales concepts and POS solutions

WERE THERE WHEN YOU NEEDED THEM
— High storage capacities
— Ready for shipping at any time

MORE THAN JUST PRODUCTS
— Support from our own employees
— Expert advice
— Support with placement and promotions

RESPONSIBILITY THAT WORKS
— ISO 14001:2015 certified environmental management
— Cardboard instead of plastic wherever possible
— Responsibility for people and the environment in production
— Focus on sustainable development

STRONG BRAND. STRONG TEAM.
— Groundbreaking, innovative corporate culture
— Health promotion programs
— Open, modern office concept with varied communal and open areas.

POS-CONCEPT

THE MODULAR GEBOL POS SYSTEM.

THE RIGHT SOLUTION FOR EVERY MARKET

Our POS systems are delivered to you ready for sale and are the perfect addition to your existing product lineup. We'd be happy to put together secondary displays tailored to your needs.

You choose the products you want—we deliver the display, ready for sale. All that's left to do is place it in a high-traffic area. Get ready for plenty of impulse purchases from your customers!

MOBILE DISPLAY STAND

DESCRIPTION
— Ideal for seasonal and new placements
— for flexible positioning
— 10 models
— The mobile display unit is delivered fully stocked and "ready-to-sell." All you have to do is attach the Crowner.

AI-GENERATED

FREE DISPLAY
with a net assembly value of €700 or more

1-METER WALL SHELF
